Protecting Indoor Air and Surfaces™ AERUS

Certificate of Congratulations

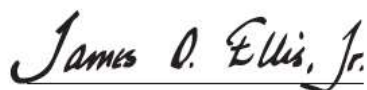

presented to

Aerus LLC

The Space Foundation recognizes the significant role Aerus has played in the development of the ActivePure Radiant Catalytic Ionization (RCI) technology.

This innovation is an exceptional example of the successful transfer of space technology to Earth applications and is honored with induction into the 2017 Space Technology Hall of Fame.

The Space Foundation commends your support of and contributions to this outstanding technology.

ADM James O. Ellis, Jr., USN (Ret.)
Chairman, Board of Directors
